

SNF has laid down its Sustainable Development undertakings in its Management statement, its sustainable development programme, its commitment to the UNO's World Pact and its on-going internal actions. This approach was formed in association with all the players related to our business and involves our employees, our suppliers and our customers.

With this in mind, SNF has undertaken with its customers to reply to any requests in this field and to cooperate in assessment and audit requests.

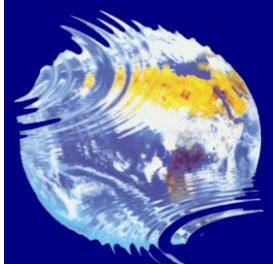

The following chart names the main customers' or organisms' requests (audit, survey...):
